SoCal Filters Sales & Service

Servicing Southern California Since 2013

CAPABILITY STATEMENT

AIR FILTRATION PRODUCTS & SERVICES

SoCal Filters and Service Inc.

Founded in 2013, SoCal Filters and Service Inc. is a stocking wholesale distributor of commercial, industrial, institutional, and critical-environment air filtration products. We manufacture special-size pleated and panel filters in-house. Operating from an approximately 20,000-square-foot warehouse in Paramount, California, we provide nationwide product distribution and scheduled HVAC filter installation and replacement services throughout Southern California.

CORE COMPETENCIES

HVAC Filter & Media Distribution
Pleated, rigid cell, bag, mini-pleat, V-bank, polyester, metal and spray booth filters; roll media, pads, ring panels, link panels and moisture eliminators.

Critical-Environment Filtration Supply
HEPA/ULPA, nuclear-grade HEPA, activated carbon filters and media, NESHAP filtration products and high-temperature filters.

Cleanroom & Containment Product Supply
Cleanroom modules, grid systems, control consoles, fan-powered HEPA units and bag-in/bag-out (BIBO) containment housings.

Custom Size Filters
Custom and special-size pleated filters are manufactured in-house.

Equipment & Components
In-line duct-mounted ASHRAE & HEPA filter housings, filter holding frames, clips, Magnehelic differential pressure gauges and accessories.

Filter Services & Technical Support
Scheduled installation and replacement, product selection, application support, in-house filter static pressure testing, specialty sourcing and scheduled delivery.

SELECTED CUSTOMER EXPERIENCE

UCLA | Since 2014
Contracted HVAC filter supply and related services.

UC Irvine | Since 2019
Contracted HVAC filter supply and campus facility support.

Raytheon
Annual HVAC air filter replacement services.

Reagan UCLA Medical Center
Filter replacement, including operating room filtration.

HRL Laboratories, LLC
Filtration products and filter-related laboratory services.

Sepulveda Getty Center
Carbon filtration equipment selection and media consultation.
