

Servicing Southern California Since 2013

NOTICE OF COMPANY TRUCK FUEL SURCHARGE

Subject: Notice of Company Truck Fuel Surcharge — Effective October 1, 2026.

Dear Valued Customer,

SoCal Filters and Service Inc. remains committed to providing dependable delivery service and quality HVAC filtration products to support your operation.

Due to significant increases in diesel-fuel costs and the resulting expense of operating our delivery fleet, SoCal Filters and Service Inc. will implement a Company Truck Fuel Surcharge effective October 1, 2026.

The surcharge applies only to deliveries completed by SoCal Filters and Service Inc. company vehicles. It will be shown as a separate line item on your invoice and is intended to offset a portion of extraordinary fuel costs associated with providing reliable local delivery service.

The surcharge will be based on the weekly California On-Highway Diesel Fuel Price published by the U.S. Energy Information Administration (EIA). The EIA statewide on-highway diesel benchmark will provide a consistent, independent reference for fuel-market conditions. <https://www.eia.gov/petroleum/gasdiesel/>

Company Truck Fuel Surcharge Schedule

EIA California Average On-Highway Diesel Price	Fuel Surcharge Applied to Delivery Charge
Under \$5.00 per gallon	No surcharge
\$5.00–\$5.99 per gallon	5%
\$6.00–\$6.99 per gallon	10%
\$7.00–\$7.99 per gallon	15%
\$8.00–\$8.99 per gallon	20%
\$9.00–\$9.99 per gallon	25%
\$10.00 per gallon and above	30%

The applicable surcharge will be determined from the most recently published EIA California diesel-price data. A minimum surcharge of \$5 per delivery will apply when the calculated percentage is less than 5%.

This surcharge does not apply to customer pickup orders. Freight and fuel surcharges charged by third-party carriers, when applicable, remain separate and may continue to appear on invoices.

The surcharge will be reviewed periodically using the most recently published EIA California diesel price. SoCal Filters and Service Inc. may adjust or remove the surcharge as fuel-market conditions change.

We appreciate your understanding and continued business. If you have questions regarding this policy or how it applies to your account, please contact us at 424-216-5473.

Sincerely,

David McKinney
President
